

A photograph of a modern street deck. The deck is built with dark metal railings and planters filled with tall grasses. Two people are sitting at a table on the deck, looking out towards a street. The street has a white car and a building in the background. The overall scene is bright and sunny.

STREETDECK

Reimagining our city streets

Introduction

From our humble beginnings as the first importer of interlocking wood deck tiles and now a major importer of porcelain pavers and deck supports, Archatrak has continually strived to introduce innovative products that promote enjoyment of the great outdoors, by individuals or communities.

And so the concept of StreetDeck was born – a complete, self-contained curbside seating structure, supplied with planters, decking and railings in a modular, ready to assemble, kitset form, customizable and adaptable to practically any site, any surface, any condition.

Designed for either permanent or temporary installations, StreetDeck offers a simple, practical and affordable way to bring communities together, revitalize downtown areas, boost local economies and assist neighborhood restaurants.

StreetDeck kits include all components needed to create totally self-contained raised decks, either curbside mounted or stand alone, customizable, adaptable to most site conditions, extendable to any length and adjustable to suit diverse curbside spaces.

Components

- Steel containment frame
- Integrated steel planters
- Railings or fence panels
- Porcelain paver or wood tile deck
- Adjustable height supports
- Rubber support pads
- Aluminum access ramps
- All required fixing bolts & brackets

Benefits

- Quick to assemble
- No on-site fabrication
- Affordable
- Eliminates architectural fees
- Extendable to any length
- Completely self-contained
- Pre-cut modular components
- 70+ color options for deck pavers
- ADA accessible
- Customizable
- Simple to disassemble and store
- Adjusts to sloping substrates
- Unimpeded under deck drainage
- Easy to maintain

Kit Options

Integrated seating

The image shows an outdoor seating area on a green lawn. In the foreground, there is a white square table with four red chairs. Behind it, there is a red square table with four grey chairs. Further back, another red table and grey chairs are visible. The background features a large, multi-story building with a light-colored facade and many windows. The scene is brightly lit, suggesting a sunny day.

SEATING

‘Busy’ Chairs

A lively, lightweight and stackable range of outdoor café furniture with a solid steel frame, a powder coated aluminum seat and a whimsical polka dot pattern permitting rapid run-off of water. ‘Busy’ chairs are often paired with the compact, stackable ‘Moon’ table with a 32” x 32” or 32” x 55” table top.

‘Kasa’ Umbrellas

- 8’ diam. UV coated polyester canopy
- Flexible solar cells integrated in canopy
- Bright LED lights along spokes
- Up to 10 hrs continuous night illumination
- Choice of two brightness levels
- 4 x USB charging outlets for mobile devices
- Charge indicator
- Colors: Red, green or taupe

LIGHTING

CHARGING

Far from just a place to sit, Archasol solar benches can foster interpersonal interaction, provide advertising opportunities, act as a convenient recharging station for mobile devices, a place to relax or a place to meet up with friends.
